Text

In the event of another wave, respondents noted that the services of a psychologist, self-help groups, and medical services are extremely important.

Following these are services of lawyers, safe spaces, information and resource centers, leisure activities, and work with the community.

В случае новой волны респонденты отметили, что крайне важны услуги психолога, организаций групп само- и взаимопомощи и медицинский сервис.

Далее идут услуги юристов, безопасное убежище, информационно-ресурсные центры, организация досуга, работа с обществом
